

10535

Electric letter opener 10535 The electric letter opener guarantees the efficient handling of all your incoming mail. It minimises the time you have to spend on this type of work every day ? time which you can spend on more important jobs !

This electric letter opener is suitable for envelopes up to DIN A4 format and a thickness of 1.5 mm. The letter opener slits the envelope open at the top end. The letters are not affected and the workplace is not strewn with annoying snip-pets of paper.
